01 EDUCATION

Engineering degree, Computer Science
ENSEEIHT · INP Toulouse
2026 - 2029 — Toulouse

- Computer science and applied mathematics, heading towards AI.

MP preparatory classes
Centre International de Valbonne
2023 - 2026 — Sophia Antipolis

- Intensive mathematics, physics and computer science for the engineering school entrance exams.

Baccalauréat with honours
Institution Sasserno
2023 — Nice

- Majors in mathematics and physics. European section in Italian.

02 PROJECTS

TIPE: predicting cardiac fibrillation
Research project, MP preparatory classes
2025 - 2026

- Studied the period-doubling bifurcations that come before arrhythmia.
- Simulated the Mitchell-Schaeffer cardiac model in Python and plotted bifurcation diagrams.
- Proved an early-warning result based on autocorrelation.

Mobile app for a company
Team project

- Built an app in a team for a real client, with a flexible role depending on the project's needs.

03 EXPERIENCE

Private tutor
Mathematics, physics, computer science
1 year

- Tutored two high school students: assessed their level, then went back over what they had missed.
- Visible progress and good feedback from both students.

Observation internship (Year 10)
Squad, European cybersecurity group
2021 · 2 weeks — Sophia Antipolis

- Joined a development team: daily meetings, Scrum sprints, Git and Jira.
- Helped build parts of an application's user interface.
